

## Increase your visibility in the CLIB network via our sponsorship opportunities.

At the **CLIB International Conference**, we offer various packages and individual options allowing you to introduce yourself to our broad network in the best possible way. We would be happy to discuss with you which combination of services is right for you.

As a CLIB member, you have the exclusive option to introduce yourself in our **CLIB Brochure** with an advertisement.

For all questions about sponsorship at CLIB, please contact Katrin Kriebs ([kriebs@clib-cluster.de](mailto:kriebs@clib-cluster.de)) from the CLIB team.

### About the CLIB International Conference 2025

From 18 to 19 February 2025, we are once again expecting more than 200 international participants from industry, academia, and politics from Germany, Europe and other international partner countries to attend our two-day conference. Under the title "**Biotech made in Europe – ready to create impact!**", we will hear and discuss how we can realise the potential of biotechnology.

Be present with your logo, place an ad in the Abstract Book, or book an exhibition stand. Or choose one of the exclusive options that are only given once, such as sponsoring the conference bags or the conference dinner on the evening of 18 February. In addition to the service combinations in our packages, we are also very happy to talk to you about individual packages.

### About the CLIB Brochure 2025/2026

The CLIB brochure provides an overview of all CLIB activities and members every year. It will be published at the CLIB International Conference 2025 and distributed digitally over 12 months with a print run of 4,000 copies inside and outside the network. The target group includes science, business, and politics in Germany, as well as in other European countries.

As a CLIB member, you have the exclusive opportunity to increase your visibility by placing an ad in the brochure.
